

Body Ecology® Bifidus Power Blend contains the bacteria present in the colon of a healthy breast-fed newborn. Research shows that Bifidus strains may help reduce anxiety, improve constipation, support immunity, degrade oxalates, and reduce inflammation.*

Recommended Usage: Mix one large scoop (tad scoop) for adults – or one small scoop (smidgen scoop) for children – in water and take on an empty stomach or 1-2 hours before or after a meal, or as recommended by your healthcare professional. Refrigerate to retain highest potency. Store measuring spoons in a dry area to avoid moisture. Keep out of reach of children. Consult your physician prior to using this product if you are pregnant, nursing, taking any medication or have a medical condition. Do not use if seal is broken.
