DIETARY SUPPLEMENT

Solgar® Wild Alaskan Full Spectrum Omega Softgels
are sourced from sustainably-caught Sockeye salmon
from the pristine cold waters of Alaska. Never farmed,
always wild.

Studies have shown that omega-3 fatty acids from fish
oil, including EPA and DHA, play a major role in
supporting heart health, healthy circulation, and
healthy joints.*

Our proprietary distillation process removes heavy
metals, such as mercury, and environmental
impurities without harming the product's
effectiveness. And because quality is our top
priority, the freshness of Solgar® Wild Alaskan
Full Spectrum™
Omega is based
on guidelines
made by GOED,
an organization
that sets fish
oil industry
standards.
