

**Directions:** As a dietary supplement for adults, take one (1) softgel up to three (3) times daily, or as directed by a physician.

**Healthy Origins® Sunflower PS** featuring Sharp-PS® GREEN is a unique, soy-free source of phosphatidylserine derived from European, Non-GMO sunflower lecithin. Phosphatidylserine is a phospholipid compound found naturally in brain cell membranes, however, with advancing age, our natural phosphatidylserine levels can diminish, which may impact our cognitive abilities. Unfortunately, obtaining significant amounts of phosphatidylserine through our diet has proven to be quite difficult. Therefore, many individuals have chosen to take phosphatidylserine supplements. Supplementation with phosphatidylserine may help to replenish depressed levels of phosphatidylserine, enhance cognitive focus, nourish brain cell membranes and support healthy cognitive function.\*
