Supports healthy lungs and clear breathing*

Cardamom (*Elettaria cardamomum*) is an aromatic spice that awakens the appetite and supports healthy digestion without aggravating pitta. It supports balanced stomach acid levels and the downward flow of energy in the GI tract. This helps pacify vata and pitta and promotes a comfortable post-meal experience. Cardamom removes excess kapha from the stomach and supports healthy mucus levels in the body. It also eliminates kapha from the lungs, supporting clear, comfortable breathing. In *The Yoga of Herbs*, Doctors Lad and Frawley write that cardamom "stimulates the mind and heart and gives clarity and joy."^{**}

Suggested Use: ¼ to ½ teaspoon with warm water, once or twice daily, or as directed by your health practitioner.
