Licorice powder

Promotes clear, comfortable breathing*

Removes excess kapha from the stomach and lungs*

Supports healthy expectoration and proper function of the lungs*

Soothes the mucous membranes and stomach lining*

Licorice (*Glycyrrhiza glabra*) is a sweet, nourishing herb that is excellent for supporting healthy lungs. Its unctuous quality moistens vata and liquefies kapha, promoting healthy expectoration and clear breathing. A natural demulcent, licorice soothes the stomach lining, pacifies excess pitta, and promotes stomach comfort. It supports the natural lubrication of the mucosal membranes, calms excess vata, and supports regular elimination. Licorice is a tonic for the male reproductive system that promotes virility and the healthy production of semen.

Suggested Use: ¼ to ½ teaspoon with warm water, once or twice daily, or as directed by your health practitioner.

Not to be used during pregnancy. If you are nursing, taking medications, or have a medical condition, please consult with your health care practitioner prior to the use of this product.
