† These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

*In a double-blind, placebo-controlled, cross-over study, 26 subjects exercised on a treadmill on two occasions. On one occasion the subjects took Thermo Igniter 12X before exercising and on the second occasion, the took a placebo. When the subjects took Thermo Igniter 12X they burned 12 times more calories during and 12 hours after exercise compared to when they took the placebo.

*In a 4-week randomized, double-blind, placebo-controlled study of 50 healthy recreational male volunteers ages 19-29, subjects were supplemented with either one of two doses of the Muscle Fatigue Buffer or placebo. After 4 weeks of treatment, the subjects taking the Muscle Fatigue Buffer experienced significant increases in PRCP1 (physical working capacity at the fatigue threshold) over the placebo group.

*In a randomized, double-blind clinical trial, 47 healthy young adult males were supplemented with either Nighttime Restore or placebo. After 28 days of treatment in the active subjects, the magnesium and zinc blend increased by 52 lbs, and the placebo group did not have significant improvements.

*47 healthy young adults' muscle biopsy results revealed that Creatine HCl resulted in 100% greater muscle creatine uptake relative to benchmark amounts of ordinary creatine monohydrate powder.

†When used in conjunction with an exercise program.

LIMITED EDITION

## HIGH INTENSITY TRAINING PROGRAM COMBINES 5 POWERFUL FORMULAS IN 1 CUSTOMIZED KIT!

Experience all of the nutritional support you need to perform well in one kit. Whether you're in excellent shape or just starting out, this 2-week stack will help power you through your workouts and perform better. High intensity training camps and boot camp workouts are some of the toughest training regimens athletes will experience. Don't struggle to finish your workouts, but instead power through them with GNC Pro Performance® High Intensity Training Program. All of the science and customized formulations have been developed to help your body respond better to intense training environments and supporting an anti-catabolic state. Staying in anabolic, nitrogen-rich environments is key – this powerful kit provides a Nitro-Factor™ of 34g per day to help fuel muscle performance and anabolism.

## POWERFUL PRE-TRAINING PACK

The Pre-Training Pack is a powerful formula meant to be taken prior to training or first thing in the morning on non-training days for 12 times more calorie burn to boost energy and metabolism.† The clinically proven Muscle Fatigue Buffer will help to improve physical performance and provide 20% more power output at the body's barrier during intense training. Plus, this blend contains a highly available form of Arginine to help expand blood vessels for increased blood flow and delivery of vital nutrients to muscles.

## POST-TRAINING RECOVERY WITH 100% WHEY PROTEIN

The GNC Pro Performance® 100% Whey Protein Chocolate Supreme is loaded with the fuel it needs for muscle growth and recovery.† Maintaining a stable balance of muscle glycogen is key to pushing through even the most intense workouts. Loaded with 24 grams of high-quality protein and a full spectrum of amino acids, this delicious whey protein is perfect for post-workout recovery or as a snack any time of the day on non-training days.

## NIGHTTIME STRENGTH & SUPPORT PACK

A key factor in any training regimen is knowing when you are getting enough time to rest and recover with proper supporting nutrients, often an overlooked area of sports supplementation. The Nighttime Strength & Support Pack contains a Nighttime Restore blend with Zinc and Magnesium Aspartate and amino acids to help replenish muscle stores with key minerals and amines. And, the clinically proven Creatine Strength Support is shown to improve muscle creatine absorption by 100%, delivering greater creatine uptake to support athletic performance and increase strength.*

## NITRO-FACTOR™ = MAXIMIZE MUSCLE BUILDING†

The full muscle building potential of a GNC product is based on its total nitrogen content – so the more nitrogen a product has, the stronger it will perform. Pro Performance® High Intensity Training Program with a Nitro-Factor™ of 34 grams helps fuel performance and anabolism.*
