

Directions: As a dietary supplement for adults, take two (2) tablets daily, or as directed by a physician.

Healthy Origins® NAC is a conditionally essential amino acid that is produced by the body from methionine and serine. NAC is primarily known as a precursor to L-Glutathione production in the body.*

L-Glutathione is known as the body's master detoxifier. Glutathione is a potent antioxidant that plays a major role in healthy body detoxification, immune support, cellular function, and respiratory health. L-Glutathione also helps to regenerate other antioxidants such as Vitamin C and Vitamin E.

For enhanced antioxidant support, consider taking NAC along with Vitamin C, Vitamin E, and Alpha Lipoic Acid.
