

Directions: Take one (1) to two (2) capsules twice daily at or between meals, or as directed by a healthcare practitioner.

Warning: Individuals taking medication, children and pregnant or lactating women should consult their healthcare practitioner prior to use. Do not use if tamper seal is damaged.

Optimum Magnesium™ contains patented mineral-amino acid chelates in delayed release capsules with zero fillers. Designed for enhanced absorption, this non-laxative formula features highly bioavailable, well-tolerated **TRAACS® Magnesium Lysinate Glycinate** (mineral-amino acid chelate). Magnesium insufficiency is widespread in adults globally, yet critical for optimum vitality. Involved in over 300 enzyme-related processes including cardiac, muscle and nerve functions, magnesium also plays a key role in supporting strong teeth, optimal bone density and maintenance of normal blood glucose levels. Malic acid from **Albion® DiMagnesium Malate** is included to enhance magnesium's efficacy and provide nutritive support for healthy muscular energy. It has also been shown to enhance the body's all-important glutathione and antioxidant systems.*

Storage: Keep tightly closed in a cool, dry place. Keep out of reach of children. Do not throw out the desiccant, as it's needed for freshness.

Formulated to Exclude: Fillers, gluten, wheat, soy, corn, yeast, animal or dairy products shellfish, fish, peanuts, tree nuts, egg, ingredients derived from genetically modified organisms (GMO's), artificial preservatives, sweeteners or colors.
