

Directions: As a dietary supplement for adults, take one (1) vegetarian capsule daily, preferably with a meal, or as directed by a physician.

Scientists discovered the importance of alpha lipoic acid in the 1950s and recognized it as an antioxidant in the 1980s. Alpha lipoic acid is found naturally inside every cell in the body. In the cell, its primary responsibility is to assist in the conversion of glucose to energy.*

Alpha lipoic acid also helps to neutralize free radicals, recycle antioxidants such as Vitamin C and Vitamin E, and support the formation of glutathione in the body.*

Caution: Consult a physician before use if you are pregnant, nursing, taking medication or have a medical condition.
