

Potency Guarantee: Minimum of 1 billion cfu of live, active *B. infantis* beneficial probiotic bacteria **NLS super strain** per serving (approx. 1/4 teaspoon) guaranteed through expiration date, if kept **dry** and **refrigerated**.

Suggested Use for Infants, Expectant or Nursing Mothers: Daily, 0.5 grams (approx. 1/4 level teaspoon) mixed with 1 oz. unchilled, filtered (chlorine-free) water, preferably before meals to optimize digestion.* If using infant formula, use a portion of the formula to dissolve **Life Start**[®], then add mixture to remaining formula and shake bottle to thoroughly mix. **Life Start** should be taken at least 2 hours apart from herbs, garlic and prescription drugs for optimal results. Expectant or nursing mothers may use **Life Start** in conjunction with Natren's **Healthy Trinity**[®] System.

The **Trenev Process**[®], a unique proprietary process, substantially increases the probiotic benefits by keeping the bacteria in their natural environment (supernatant) to ensure potency and efficacy, eliminating the need for additives. For more information, please call for a complimentary brochure.

DO NOT FREEZE OR EXPOSE TO MOISTURE, HEAT OR DIRECT SUNLIGHT.

DO NOT ACCEPT IF SEAL IS BROKEN.

KEEP REFRIGERATED AND DRY TO MAINTAIN POTENCY GUARANTEE.
