Bone Builder™ with Boron is an excellent bone support formula featuring calcium-rich microcrystalline hydroxyapatite concentrate (MCHC), a complex crystalline compound composed primarily of calcium, phosphorus, and organic factors that naturally comprise raw bone. The MCHC in Bone Builder with Boron is cold-processed to preserve the delicate protein matrix and organic factors.

Calcium, along with regular exercise and a healthy diet, can play a significant role in reducing the risk of bone loss or bone thinning and in protecting bone strength. The trace mineral boron plays a role in healthy calcium and bone metabolism.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

DIRECTIONS: Take up to six tablets daily.

CAUTION: Keep out of the reach of children.

DOES NOT CONTAIN: Wheat, gluten, corn protein, yeast, soy, dairy products, or artificial colors, sweeteners, or preservatives.
