

SUGGESTED USE: Adults take 4 capsules once a day with a fat-containing meal or as directed by your qualified healthcare professional.

Bile Acid Factors® consists of a mixture of highly concentrated bile acids, mostly in the conjugated form, from U.S. and/or New Zealand bovine bile.

- Bile acids, also called bile salts, are important for fat digestion and absorption.*
- Inadequate bile salts can result in loose stools and reduced absorption of fat and fat-soluble nutrients.* In the small intestine, bile salts are required to emulsify fats for digestion and absorption.*

WARNING: Consult a healthcare professional before using this product if you are pregnant, nursing, under the age of 18, are taking medication or have a medical condition; if adverse reactions occur, discontinue use.

KEEP OUT OF THE REACH OF CHILDREN.

STORE IN A COOL, DRY PLACE.
