

SUGGESTED USE: Adults take 1 capsule 1-2 times a day between meals or as directed by your qualified healthcare professional.

Jarrow Formulas® Colostrum Prime Life® contains a minimum of 30% immunoglobulins, proteins that support immune and gastrointestinal health.* Colostrum is collected within 16 hours of calving from American pasture-fed cows that have been raised without the use of growth hormone (rBGH), antibiotics, or pesticides in their feed. Low-temperature processing, along with analytical testing, ensures that immunoglobulin fractions are not denatured. To further minimize the denaturation of immunoglobulins, Colostrum Prime Life® is delivered in delayed release capsules.

WARNING: Consult a healthcare professional before using this product if you are pregnant, nursing, under the age of 18, are taking medication or have a medical condition; if adverse reactions occur, discontinue use.

KEEP OUT OF THE REACH OF CHILDREN.

STORE IN A COOL, DRY PLACE.
