

Bifidobacterium longum subsp. *infantis* M-63

Bifidobacterium longum subsp. *infantis* (*B. infantis*) is associated with improved growth, the development of intestinal membrane integrity, and is critical for a developing immune system.*

B. infantis is the predominant intestinal organism found in breast-fed infants.* *B. infantis* M-63 was isolated from a healthy infant and clinically proven to colonize the intestines of infants.*

B. infantis is the only bacterial species to utilize Human Milk Oligosaccharides (HMOs) components made by fermentation (such as 2'-FL and 3'-SL), which allows *B. infantis* to outcompete other species.*

Jarro-Dophilus® Infant is formulated with medium chain triglycerides (MCT), which are naturally present in breast milk and are more easily absorbed by the newborn's immature digestive system.*

Live Probiotic Guarantee

When kept under recommended storage conditions, **Jarrow® Probiotics** are formulated to ensure CFU counts are guaranteed within **Best Used Before** date.

STORE IN A COOL, DRY PLACE.

* THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE, OR PREVENT ANY DISEASE.

The
Developing
Intestinal
Microflora of
a Newborn Is
Up to 90%
B. infantis.

SUGGESTED USE: For newborns to infants up to 6 months old, add one half dropper (0.5 mL), once a day, to foods, lukewarm milk, or infant formula. Or use as directed by your qualified healthcare professional. Shake bottle well before each use. Once the bottle has been opened, use within 30 days.

Strains Matter®

When it comes to effective probiotics, clinically documented **Strains Matter®**. As an innovator of consumer probiotics since 1986, Jarrow Formulas® takes great pride in using high-quality and scientifically documented strains that have been developed through years of research and innovation.

WARNING: Consult a healthcare professional before using this product if your child has a medical condition; if adverse reactions occur, discontinue use. **KEEP OUT OF THE REACH OF CHILDREN.**

No Refrigeration Necessary

Does not require refrigeration and can be stored at room temperature in a cool, dry place. Avoid storage at temperature above 77°F (25°C). Refrigeration, however extends shelf life.
