

SUGGESTED USE: Adults take 1 softgel once a day or as directed by your qualified healthcare professional.

Jarrow Formulas® MK-7 is naturally made via fermentation by *Bacillus subtilis* subsp. *natto* and is much better absorbed than K₁ from spinach.* MK-7 is a longer-acting form of vitamin K versus K₁ and MK-4, and better supports carboxylation of specific proteins needed to build bones and support cardiovascular health.*

WARNING: Consult a healthcare professional before using this product if you are pregnant, nursing, under the age of 18, are taking medication (especially anticoagulants [e.g. Warfarin/Coumadin]) or have a medical condition; if adverse reactions occur, discontinue use.

**KEEP OUT OF THE REACH OF CHILDREN.
STORE IN A COOL, DRY PLACE.**
