

Directions: For a luscious drink add one teaspoonful of wild CeylonPower tea to a cup of boiled water. Or, add 3 teaspoonsful to a 32-ounce thermos filled with boiled water. The hot water extracts the active ingredients. Wild ginger aids in the absorption, the two spices acting together synergistically. Use it also as a food mix in all dishes, including stir-fry, desserts, and smoothies.

CeylonPower tea is a combination of wild, raw Ceylon cinnamon plus wild, raw Ceylon ginger. Because it's wild and remote-grown, it is maximum strength. Use it to support blood sugar health, inflammation support, immune support, fat metabolism, and far more.* Drink your CeylonPower tea every day.
