LivaLatte Drink Mix
With wild chaga, maca, & birch bark

LivaLatte Drink Mix is the power of wild, far northern forest, roasted dandelion root fortified with wild chaga and birch bark. Plus, it is fortified with Peruvian maca root powder. Roasted dandelion root provides potent health-giving support for healthy, whole body elimination. It's an ideal cleanse for supporting overall liver, gallbladder, digestive, and kidney function. In addition to acting as a potent detox, this delicious combination creates immense synergy and potency plus physical strength and stamina.* LivaLatte Drink Mix is a natural source of key substances needed for optimal human health: plant sterols, inulin, arbutin, betulin, caffeic acid, chlorogenic acid, melanin, beta glucan, rare trace minerals, and antioxidants. Chaga is the richest source of the all-important enzyme superoxide dismutase (SOD), plus it is a natural source of B vitamins. Both chaga and birch bark are top sources of the highly potent plant sterol and antioxidant betulinic acid. Jerusalem artichoke and yacon powder provide healthy

intestinal support as excellent sources of friendly bacteria-supporting prebiotics.

Directions: mix LivaLatte in your favorite hot drink or use as a coffee substitute. Add to hot nut milk or organic milk, adding sweetener as desired, or use in hot water as a tea.
