

MEN'S FORMULA

A DIETARY SUPPLEMENT

120 Capsules

Exclusively manufactured for:

LONGEVITY  MEDICAL CLINIC™

This formula contains compounds that aid in the regulating of steroid hormones and support healthy prostate cells. DIM (diindolylmethane), an advanced metabolite of Indole-3-Carbinol found in cruciferous vegetables, has been shown to support healthy steroid hormone metabolism and optimal ratios of hormone metabolites. Calcium D-glucarate, D-glucaric acid bound to calcium supports the body to eliminate excess steroid hormone metabolites.*
