

PURE GREEN COFFEE EXTRACT

550mg
A DIETARY SUPPLEMENT

60 Capsules

Exclusively manufactured for:

LONGEVITY  MEDICAL CLINIC™

Longevity's green coffee bean extract, from unroasted coffee beans, helps you maintain a healthy weight and body composition. Unlike roasted coffee, green coffee beans contain high levels of the powerful antioxidant, chlorogenic acid, which supports healthy blood sugar and fat metabolism. Chlorogenic acid improves glucose tolerance and insulin sensitivity, retards the absorption of fats, and activates fat metabolism. Longevity's natural green coffee bean extract is standardized to contain 45% chlorogenic acids (and very little caffeine) to help keep you lean.*
