

LONGEVITY™
MEDICAL CLINIC

WOMEN'S FORMULA

A DIETARY SUPPLEMENT

120 Capsules

Exclusively manufactured for:

LONGEVITY  MEDICAL CLINIC™

This formula features DIM (diindolylmethane), Calcium-D-Glucarate, and other natural compounds that support healthy estrogen metabolism and breast health. DIM is an important metabolite of Indole-3-Carbinol found in cruciferous vegetables that has been shown to promote an optimal ratio of estrogen metabolites and provide support for healthy breast cells. Calcium-D-Glucarate is a patented form of glucaric acid that helps prevent recycling of hormones and environmental toxins, supporting excretion of these potentially detrimental substances.*
