Other Ingredients: Purified Water, Glycerine, EDTA (Ethylene Diamine Disodium Benzoate as Preservative), Sodium Benzoate (Food Preservative), Natural Flavoring, FD&C Red # 40

ABOUT THIS FORMULA

Creatine HCL's superior solubility and energizing advantages, optimized for performance-obsessed cyclists in a powerful serum that absorbs in your mouth. Not in your gut. That rapidly flows into your bloodstream to fuel energy-starved muscles And also eliminates the drawbacks of powdered creatine like loading, water retention and those other side effects. Which means you can get the surging muscle power and long-lasting extended endurance that creatine delivers whenever you're good to go.

HOW TO USE

10 minutes before your workout, fill the dropper and place 1 ml of serum under your tongue. Repeat 4 more times. For best results, hold serum in your mouth until completely absorbed.
