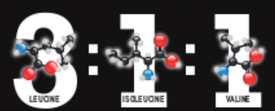
MASS GAINING FORMULA WITH mTOR ACTIVATORS

Science confirms what athletes have always known: high quality calories and protein intake is linked to muscle size and strength. **MONSTER MASS™** is a macronutrient dense gainer designed to maximize lean mass gains.**

50% MORE LEUCINE††

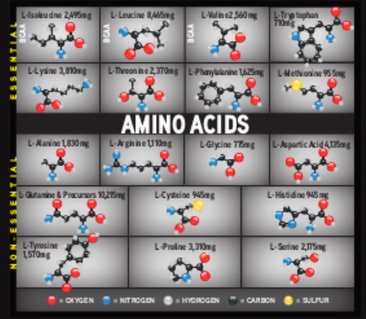
MONSTER MASS is fortified with 4 grams of added L-Leucine to drive an industry leading **3:1:1 Ratio** of BCAAs



Recent university research shows that Leucine enriched beverages consumed with exercise synergistically activates and prolongs activity of **mTOR** signaling pathway, which increases muscle anabolic potential (muscle growth)**[1,2,3]

†† Monster Mass contains 50+% more leucine per gram protein than typical protein powders.

TYPICAL AMINO ACID PROFILE per 4 scoops 150g (50g Protein)



50g PROTEIN MATRIX	0-2 HOURS: RAPID RELEASE PROTEINS (Whey Protein Concentrate, Whey Protein Isolate, Whey Protein Hydrolysate) · 2-6 HOURS: SUSTAINED RELEASE PROTEINS (Whey Protein Concentrate, Milk Protein Isolate, Micellar Casein, Casein)
610 CALORIES	MACRONUTRIENT DENSE FORMULA FOR MAXIMIZING LEAN MASS GAINS**
4g ADDED L-LEUCINE	FOR mTOR PATHWAY ACTIVATION (MUSCLE PROTEIN SYNTHESIS)**
2g ADDED L-GLUTAMINE	TO ENHANCE MUSCLE TISSUE RECOVERY/REPAIR**
250mg AMINOGEN™	DIGESTIVE ENZYME COMPLEX FOR EFFICIENT PROTEIN DIGESTION AND UTILIZATION**
CARBOHYDRATES DRIVE PROTEIN UTILIZATION	CARBOHYDRATES TRIGGER INSULIN PRODUCTION WHICH IN TURN HELPS DRIVE AMINO ACID UPTAKE AND UTILIZATION BY MUSCLE TISSUES**

Since we founded **CyteSport**® in 1998, we've been dedicated to working with sports scientists, coaches and trainers to redefine protein enhanced products for active lifestyles and serious athletes – supporting performance when it matters. Over the years, we've expanded to create a comprehensive line that encompasses the athletic experience from preparation, to hydration, to recovery. Our products are among the very few that are manufactured in a **NSF International GMP for Sport® Registered** facility. Our facilities are also inspected and regulated by the **FDA**. We carefully manufacture our powder products and ready-to-drink pre-blends onsite at our corporate campus in Benicia, California.

Making efficacious products for athletes and active lifestyle individuals requires responsibility on all fronts. As our business has grown, so has our footprint. We have made environmental sustainability a focus and driver in everyday decision making. For more, please visit our website.

Through it all, **CyteSport** has been committed to one thing, building athletes from the inside out.

DIRECTIONS and USE

The optimal time for a serving of **MONSTER MASS** is 30-45 minutes immediately after your workout. This timing is critical because your muscles absorb approximately 80% of the aminos and carbs necessary to help them grow during the two hour period immediately following exercise. Depending on your weight gain and caloric needs take Monster Mass as a snack or as a meal addition.

CyteSport products complement a healthful eating and hydration plan that, when combined with a balanced exercise program may contribute to healthy weight management and recovery from exercise.

Use as part of a well-balanced diet that includes whole foods and other protein sources. **Do not use this product as your sole source of nutrition.**
