

In the era of concentrated pre-workouts, the race is on to create even stronger products with no emphasis on long term increases in: performance, muscle growth or preventing devastating 'crashes' that can ruin your workouts. D Stunner™ features an advanced stimulatory blend of REV-PEA™ which results in a no crash, sustained energy experience. REV-PEA™ is an advanced blend of energy and focus enhancing phenylethylamines that are more potent and stable than phenylethylamines alone. The stimulant blend also features Tyramine HCL which aids in preventing the breakdown of supplemented PEA.† To promote boosts in performance and nitric oxide levels, D Stunner™ utilizes GlycoCarn® which is supported by research to enhance blood flow for the muscular 'pump' during exercise.† The combination of 3,7-dimethylpurine-2,6-dione and Hordenine HCL presents a new age advancement in the pre-workout category as it aids in bronchostimulation.†

D-STUNNER™

PRE-WORKOUT CONCENTRATE & BRONCHOSTIMULATOR

Grape

Supplement Facts

Servings per Container: 28

Serving Size: 1 scoop (9.3 g)

Amount Per Serving	% Daily Value
Calories	10 <1%
Calories from Fat	0
Carbohydrates	1g <1%
Sugars	0g
Vitamin B12	150 mg 2500%
D-Stunner Performance Blend	7,353 mg *
