Cell Block 80™ contains Op T-MAX™ with DM33™**Free Your Testosterone*. Lock Up Estrogen & DHT*.**

Cell Block 80™ was formulated to address 5 major biochemical processes that drive Testosterone (T) to reach the target – muscle growth. Introducing Op T-MAX™ with DM33™ (Opuntia ficus-indica Flower Extract 9:1) – Based on preliminary laboratory research, Opuntia flower extract (1 mg/ml concentration) inhibited **80% of the activity of 5alpha-reductase** in human prostate tissue homogenate and inhibited **80% of aromatase** activity in human placenta tissue homogenate*. And that's why we call it **Cell Block 80™!**

Learn more about Cell Block 80™ from Clean Machine® at: www.cleanmachineonline.com

1. Based on a clinical study involving 130 healthy adults (95 men) taking Sensoril® Ashwagandha (125 mg, twice daily) for 60 days. 2. Based on in vitro research in which stinging nettle root extract was found to inhibit the binding of DHT to SHBG. 3. Based on a pilot study involving 8 healthy men, taking boron (5 mg, twice daily) for one week resulted in a trend toward increased testosterone within the normal range. 4. Based on preliminary laboratory research, DM33™ Opuntia flower extract (1 mg/ml concentration) inhibited over 80% of the activity of 5-alpha reductase in human prostate tissue homogenate and over 80% of aromatase activity in human placenta tissue homogenate.
