

Since before recorded history, our ancestors utilized whole-animal nutrition, where organ meats were an essential part of traditional diets, prized for their nutrient density and ability to enable vitality. Enviromedica Organ Complex of grass-fed liver, heart, kidney, spleen, and pancreas delivers a rich source of vitamins, enzymes, minerals, and nutritional cofactors, perfected by nature, in their most bioavailable forms. This ancient nutritional powerhouse plays a fundamental role in supporting all body systems, including healthy skin, eyes, metabolism, immune function, and bones.*

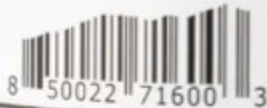

OUR PROMISE

Premium foundational products to support the body's ancestral biology.

NEW ZEALAND — THE PREMIERE SOURCE

Enviromedica Organ Complex is sourced exclusively from grass-fed livestock raised on the rich open pastures of New Zealand, where animal husbandry practices are globally considered second to none. Fresh organs are gently freeze-dried to preserve biological activity and nutrient content.
