

Pure Premium Antarctic Krill Oil

CAOH
®

60 - 500 mg Softgels

BENEFITS: CAOH® Krill Oil is extracted from Antarctic krill *Euphausia superba* that has cell membrane building blocks: highly unsaturated Omega-3 fatty acids (EPA and DHA) bound to a phospholipid backbone.

Krill oil is similar to fish oil in that it contains the omega-3 essential fatty acids, eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA). However, the similarity ends there. Oil from krill has a phospholipid structure whereas fish oil has a triglyceride form. It also has an addition to EPA called astaxanthin, which is a powerful antioxidant. This makes the ORAC (oxygen radical absorbance capacity) value of krill oil 48 times more potent than fish oil.#

Suggested Serving: 2 softgels daily.

WARNING: Consult with your physician before using this product if you are allergic to seafood, suffer from a blood clotting disorder, use blood thinners (such as Coumadin®) or other medications, or anticipate surgery.

NOTE: If you are pregnant or nursing, consult with your physician before taking this product. Keep out of reach of children.
