Creatine is one of the most misunderstood supplements, yet one of the most important tools for improving strength. Creatine is used by your muscle cells to produce energy. During strenuous exercise, your body uses this energy source to help you power through your workouts. Supplementing with creatine will also help replenish muscle creatine.

NITRO-FACTOR[™] - MAXIMIZE MUSCLE BUILDING[†]

The full muscle building potential of a GNC product is based on its total nitrogen content – so the more nitrogen a product has, the stronger it will perform. Nitrogen needs increase during training, and if nitrogen levels are low, your body pulls from muscle stores which can result in catabolism, poor performance and longer recovery. Pro Performance[®] Creatine Complex Chew with a Nitro-Factor[™] of 6 grams per serving helps fuel performance and anabolism.*

GNC QUALITY COMMITMENT For more than 77 years, GNC has been the leader in the development of superior nutritional supplements. Our products are produced using only fresh, high-quality ingredients and are manufactured under the strictest quality controls.

GNC GUARANTEE If you are not 100% completely satisfied, return the unused portion of the product with your receipt to a GNC store within 30 days. Our trained sales staff will either refund your purchase price or, if you prefer, assist you in finding a replacement product to help you LIVE WELL.
