

Omega-3 fatty acids are considered "healthy" fats that are vital for cellular, cardiac, and metabolic health.* Since omega-3 fatty acids are not synthesized by our body, they are essential fatty acids that must be taken from outside. An important criterion when choosing fish oil is the total omega-3 content, namely EPA and DHA values. Orzax Fish Oil combines the brain, heart, and joint benefits of omega-3 fatty acids in triglyceride form from cold-water fish.* Fish oil is purified by molecular distillation and high deodorization techniques helps remove fishy odor.

Directions: As a dietary supplement, take two (2) softgel capsules daily, or as recommended by a physician.

Allergen warning: Contains fish. (anchovy, sardine, mackerel)

CAUTION: Keep this product out of the reach of children. Do not use damaged or open containers. Do not exceed the recommended dose. If pregnant, nursing or taking medication, consult your physician before use. Do not use if you are allergic against to any of the ingredients. Seek medical advice if an undesired effect is observed. Store at room temperature in a dry place.
