

30% Increase in Muscle Strength¹
The unique protein blend includes an anabolic module of 20 grams of whey protein and 6.2 grams of leucine that was clinically tested in an 8-week study of athletes performing an intense resistance exercise training regimen. The athletes using this proprietary module of whey protein and leucine demonstrated an increased improvement in muscle strength and muscle size as compared to those performing the same exercise training regimen who did not consume the proprietary module. In a clinical study of participants using a unilateral lower limb resistance training protocol, even the untrained limb demonstrated increases in muscle size.*

**30% INCREASE IN MUSCLE STRENGTH
COMPARED TO PLACEBO¹**

¹ An 8-week study of athletes performing an intense resistance exercise training regimen demonstrated that those using this proprietary module of whey protein and leucine had greater increases in muscle strength and size than those on a placebo.

STACK WITH: PRO PERFORMANCE[®] AMP
Amplified Ripped, Amplified Push and Amplified Recover PM.

As an eight-week randomized double-blind, placebo-controlled study of 30 healthy male volunteers comparing 1 set resistance training (RT) + active or carbohydrate placebo to 2 sets RT alone with no supplement, the active group showed equal gains in maximal muscle strength (MMS) and muscle endurance (ME) compared to the control group.

* When used in conjunction with an exercise program. As with any food product, use of this product alone will not lead to increased muscle mass or strength.

¹ Per 3 scoop serving.

Inclusion of these enzymes resulted in a 12% greater protein breakdown as measured by the release profile of the amino acid tyrosine. These results represent the enzyme activity potential under simulated conditions. Effects in the human body have not been studied.

* In a double-blind, randomized, placebo-controlled cross-over study, 25 subjects exercised on a treadmill on two occasions. On one occasion the subjects took the thermogenic blend and on the second occasion, they took a placebo. When the subjects took the thermogenic blend, they burned 3 times more calories before, 3% more calories during and 12% more calories for up to one hour after exercise when compared to the placebo.

AMPLIFIED WHEYBOLIC EXTREME 60[™] RIPPED

**7 PRODUCTS
IN ONE**

CLINICALLY RESEARCHED

- Clinically Proven Ingredients Deliver 30% More Strength¹ + Energizing Thermogenic Blend with 3x More Calorie Burn^{2*}
- Powerful Metabolism Activators with 1000mg L-Carnitine + 400mg Svetol[®] Green Coffee Bean Extract^{1*}
- Scientifically Formulated to Fuel Lean Muscle & a Ripped Physique with 60g Whey Protein Isolate & Hydrolysate Formula + 10g Leucine^{1*}

CHOCOLATE FUDGE

NATURAL + ARTIFICIAL FLAVORS

DIETARY SUPPLEMENT
Net Wt 44.89 oz (2.81 lb) 1275 g

CODE 386346

DIRECTIONS: Once per day as a dietary supplement, consume 1-3 scoops of GNC Pro Performance[®] AMP Amplified Wheybolic Extreme 60[™] Ripped in 6, 8 or 12 fl oz of cold water respectively, 30 minutes before your workout. On non-training days, consume one serving first thing in the morning. For extreme results, take the full 3 scoop serving twice per day, pre- and post-workout.

Daily Dose ¹	Protein	Shredded Complex	Benefit
1 scoop 30 minutes pre-workout or between meals	20 g	250 mg	Helps meet protein needs & fuels metabolism*
2 scoops 30 minutes pre-workout or between meals	40 g	500 mg	Fuels muscles, metabolism & supports recovery*
3 scoops 30 minutes pre-workout or first thing in the morning	60 g	750 mg	Increase calorie burning, metabolism and strength by 30% while fasting & a ripped physique**

What is Amplified Wheybolic Extreme 60[™] Ripped?
GNC's most advanced protein, Amplified Wheybolic Extreme 60[™], has evolved even further to help meet your specific training goals, build lean muscle and fuel a ripped and muscular physique.* This product is the only thermogenic-enhanced, clinically proven whey protein isolate designed to help you support lean muscle mass and fuel a shredded physique. With a base of whey and leucine, this formula is clinically proven to fuel increased strength, muscle size and a 100% increase in exercise efficiency.** Our GNC scientists have AMPED up the protein with a Shredded Complex and a Metabolizer Matrix with clinically proven ingredients to maximize your results, making this product a combination of 7 products in 1!

Amplified Wheybolic Extreme 60[™] Ripped - Burn Calories, Build Muscle
This breakthrough formula takes protein functionality and performance to new levels so you can achieve chiseled, highly developed muscles.*

Shredded Complex & Metabolizer Matrix
Amplified Wheybolic Extreme 60[™] Ripped delivers proven ingredients in the powerful Shredded Complex to help increase energy, calorie burning, boost training performance, and speed up metabolism, plus clinically studied Green Coffee Bean Extract.* In addition, the Metabolizer Matrix features a blend of key amino acids specifically designed to help fuel the metabolism of long chain fatty acids.* Combining alanine, tyrosine, methionine and 1 gram of L-Carnitine[†] makes this a potent blend for any athlete looking to get ripped.* The 1 gram of L-Carnitine[†] helps to transform fatty acids into energy for muscles and the body's energy production system.*

Highly Effective Whey-Leucine Base
The impressive 60 grams of protein[†] is made entirely from two of the highest quality, fast-absorbing forms of whey protein, isolates and hydrolysates, including 10 grams of leucine[†] to create an ideal environment for muscle protein synthesis.* This potent blend delivers Arginine, which is involved in creatine synthesis, and over 10 grams of glutamine[†] to provide anabolic effects. In fact, the whey and leucine blend in this product has been shown to increase muscle strength and stamina with half the sets.**

Powerful Amino Acid System
This product is loaded with an array of key amino acids necessary for muscle building and metabolism support, including L-Carnitine, Arginine and over 10 grams of glutamine.[†] These are important to help prevent breakdown of lean muscle.*

Digestive Enzyme Blend for 12% Greater Protein Breakdown
This digestive enzyme blend with proven bioactivity is designed to accelerate the availability and absorption of amino acids in muscles.* This proprietary enzyme blend provides a 12% greater protein breakdown for improved uptake.*

Nitro-Factor[™] - Maximizing Muscle Building
The full muscle building potential of a GNC product is based on its total nitrogen content - so the more nitrogen a product has, the stronger it will perform. Nitrogen needs increase during training, and if nitrogen levels are low, your body pulls from muscle stores which can result in catabolism, poor performance and longer recovery. Pro Performance[®] AMP Amplified Wheybolic Extreme 60[™] Ripped with a Nitro-Factor[™] of 68 grams[†] helps fuel performance and anabolism.*

Who can benefit from taking Amplified Wheybolic Extreme 60[™] Ripped?
Whether you're a serious athlete, weekend warrior or training for a competition, you can benefit from this powerful formula. Now you can customize your dosing to meet your specific training goals and nutrient needs.

When Should I Take It?
Once per day, consume 1-3 scoops of GNC Pro Performance[®] AMP Amplified Wheybolic Extreme 60[™] Ripped 30 minutes before your workout. On non-training days, consume one serving first thing in the morning. For extreme results, take the full 3 scoop serving pre- and post-workout.

Amplified Wheybolic Extreme 60[™] Ripped Features 7 Products in 1:
1. Whey Protein Isolate
2. Amino Acid Complex
3. Leucine
4. Carnitine
5. Thermogenic
6. Green Coffee Bean Extract
7. Digestive Enzymes
