

8 50023 84749 2

This form of **B12** is made with Methylcobalamin, Adenosylcobalamin, and Hydroxocobalamin. What sets this B12 apart is that it includes hydroxocobalamin for an even higher concentration of B12. Hydroxocobalamin is the most common form of B12 found in natural foods, and is capable of staying in the body longer than other forms of B12, which makes it a preferred choice for improving B12 levels.*

Good State is proud to follow Good Manufacturing Practices (GMP)

100% SATISFACTION GUARANTEED
