

Kala Health Krill oil is a dark red colored viscous oil extracted from Antarctic Krill, *Euphausia superba*. Krill oil is rich in Omega-3 fatty acids, mainly bound as phospholipids which gives the fatty acids superior stability and bioavailability. Krill oil also contains the natural antioxidant astaxanthin.

Recommended use: Adults: take 1 capsule twice daily with a meal, or as recommended. For children adapt dosage according to body weight. Do not exceed the recommended dosage.

Storage: Store in a dark, dry place, out of reach of young children.

Food Supplement, containing fatty acids. A food supplement should not be used as a substitute for a varied diet.
