

Every capsule (Daily Portion) contains:

%RI*

Enzymes	Minimum	
Protease 3.0.....	40 SAPU	-
Protease 4.5.....	40,000 HUT	-
Protease 6.0.....	6,667 HUT	-
Pepsin (1:10,000).....	5 mg	-
Papain.....	266,660 PU	-
Bromelain.....	266,660 PU	-
Amylase	1,330 DU	-
Lipase.....	50 FCCLU	-

*%RI = EU Reference Intake

INGREDIENT COMPOSITION:

Bulking Agent (Microcrystalline Cellulose), Digestive nzymes, Hydroxypropylmethylcellulose (vegetarian capsule).

Food Supplement, containing digestive enzymes. A food supplement should not be used as a substitute for a varied diet

Batch Nr.:

Best End Before:

PLANT-BASED DIGESTIVE ENZYMES

SUPPORTS THE DIGESTION

60 CAPSULES

Every capsule contains a wide range of enzymes, designed to support the breakdown of proteins, fats and carbohydrates in the nutrition. The plant-based, high-activity enzymes have been manufactured by fermentation processes. The enzymes optimize the breakdown of foods across a broad pH range of 3.0 to 9.0. The enzymes are stable, and resistant to the acid environment of the stomach, and the basic environment of the intestine.

RECOMMENDED USE:

To support the digestion, adults take 1 capsule with a meal, or as recommended. For children calculate according to body weight. Use as long as needed. Do not exceed the recommended dosage.

Storage: Store on a cool, dry, dark place out of reach of young children.
