

Kala Health Immune Complex contains a unique blend of seven mushrooms, grown under controlled conditions on an EU organic certified farm. After harvesting, the fruiting bodies of the mushrooms are extracted 1:1 with hot water, releasing the biologically active ingredients and making them available to the human body.

Recommended dosage: Adults take one or two capsules twice daily, or as recommended. Best taken with a meal. Do not exceed the recommended daily dosage.

Storage: Store in a dark, dry place at room temperature. Keep out of reach of children.

Food supplement, containing herbs. A food supplement should not be used as a substitute for a varied diet. Suited for Vegans.

Batch Nr.:

Best End Before:

VEGAN IMMUNE COMPLEX
