

Kala Health Vitamin E **Ultra Tocotrienol** contains all four known forms of tocotrienols. The oil mixture is emulsified according to a patented method, which ensures greatly improved absorption of the fat-soluble vitamins E. The oils used are not heated and not refined, but purified and concentrated by distillation under high vacuum and at low temperatures. As a result, this vitamin E formula is guaranteed to meet the highest EU quality standards, and supplies all four natural tocotrienols in the purest form.

Recommended dosage: Adults take 1 capsule per day, or as recommended. Best taken with (fatty) meals. Do not exceed the recommended daily dosage.

Storage: Store in dry place at room temperature, out of reach of young children.

Food Supplement, containing Vitamins. A food supplement should not be used as a substitute for a varied diet.
