

Kala Health vitamin E T8 **400 IU** provides all 8 forms of vitamin E that are known, including 4 tocopherols and 4 tocotrienols. The oils used are neither heated nor refined, but purified and concentrated by distillation under high vacuum and at low temperatures. As a result, this vitamin E formula is guaranteed to meet the highest EU quality standards, and supplies the eight tocopherols and tocotrienols in the purest form.

Recommended dosage: Adults take 1 capsule per day, or as recommended. Best taken with (fatty) meals. Do not exceed the recommended daily dosage.

Storage: Store in dry place at room temperature, out of reach of young children.

Food Supplement, containing Vitamins.

A food supplement should not be used as a substitute for a varied diet.

Free of: yeast, sugar, starch, gluten, lactose, artificial flavor, color and preservatives.
