

Directions: As a dietary supplement for adults, take one (1) vegetarian capsule two (2) times daily or as directed by a physician.

7-KETO® (a trade name for 3-acetyl-7-oxo dehydroepiandrosterone or 7-oxo-DHEA) is a substance found naturally in the body and is primarily produced by the adrenal glands. **7-KETO®** is metabolized from DHEA, and similar to DHEA, **7-KETO®** levels have been known to decline with advancing age. However, unlike DHEA, **7-KETO®** does not convert to Estrogen or Testosterone. This lack of conversion with **7-KETO®** may be beneficial since overproduction of these two hormones can lead to unwanted side effects*.

Warning: Do not use if you are pregnant or nursing. Do not exceed the recommended dose. Keep out of reach of children. If you are taking prescription medications or have a diagnosed medical condition; please contact a physician before using this product.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
