

Cyclo Dex™ is our unique, estrogen-blocking formula that is specifically designed to optimize and enhance an anabolic environment by helping to decrease estrogen levels.* Cyclo Dex™ may assist by metabolizing active estrogens into inactive estrogen metabolites, blocking estrogen and by eliminating excess estrogen from the body.* It incorporates research-based, anti-estrogen ingredients such as Diindolylmethane (DIM) and natural ingredients like Japanese Knotweed Root that may allow the user to receive all of the anabolic benefits without the negative side-effects that are typical with increased levels of testosterone.*

ENERGY POWER PASSION

CYCLO DEX™
