

Discover the secret of the delicious and energizing Açai Berry (pronounced ah-sigh-EE) in Garden Greens™ AçaiSplash™ Drink Concentrate. The Açai Berry grows on top of lush palm trees in the heart of planet earth, the Amazon Rainforest. The small, oval shaped, Açai Berry is deep violet in color and is naturally rich in polyphenols and anthocyanins, two of nature's most potent antioxidants.

The Açai Berry has been consumed by South American Indians for hundreds of generations and has been treasured for its health benefits. After crushing and straining the Açai Berry, the Indians either sip the honey-sweetened juice as a refreshing beverage or combine it with granola and bananas as an energizing meal.

In addition to the Açai Berry, AçaiSplash™ contains nutrient rich berry extracts such as Lycium, Bilberry, Blueberry, and Elderberry. All these berries are combined with Grape Skin, and Pomegranate extracts to give you 100 mg of anthocyanins per serving. Anthocyanins are antioxidants that may help keep free radicals in check.

Each serving of AçaiSplash™ provides you with 3,800 ORAC. ORAC stands for Oxygen Radical Absorbance Capacity and is a new standard of measurement jointly developed by the National Institutes on Aging and the USDA Human Nutrition Research Center on Aging. In simple terms, ORAC measures how well a food or drink renders free radicals inactive. Since free radicals can damage healthy cells in the body, the higher the ORAC the better.

Now you can derive the energizing benefits of the Açai Berry in a delicious drink concentrate from AçaiSplash™. Garden Greens™ AçaiSplash™...your gold standard for concentrated food supplements.
