

## Help Save The Amazon Rainforest

With every can of Garden Greens™ Berry-Splash™ you buy, 25 cents will be donated to the Amazon Rainforest. Your purchase will help protect and enhance the future of the fragile Amazon Rainforest. This gesture will also contribute to the overall health of the Earth who is lovingly referred to as Pacha Mama by some South American Indians.

Discover the secret of the delicious and energizing Açai Berry (pronounced ah-sigh-EE) in Garden Greens™ BerrySplash™ Drink Mix. The Açai Berry grows on top of lush palm trees in the heart of planet Earth, the Amazon Rainforest. The small, oval shaped, Açai Berry is deep violet in color and is naturally rich in polyphenols and anthocyanins, two of nature's most potent antioxidants.

The Açai Berry has been consumed by South American Indians for hundreds of generations and has been treasured for its health benefits. After crushing and straining the Açai Berry, the Indians either sip the honey-sweetened juice as a refreshing beverage or combine it with granola and bananas as an energizing meal.

In addition to the Açai Berry, BerrySplash™ contains other nutrient rich berry extracts such as Raspberry, Lycium, Bilberry, Blueberry, Elderberry, Blackberry, and Cranberry. All these berries are combined with Grape Skin, Green Tea, Cherry, and Pomegranate extracts to give you 100 mg of anthocyanins per serving.

Each serving of BerrySplash™ provides you with 3,800 ORAC. ORAC stands for Oxygen Radical Absorbance Capacity and is a new standard of measurement jointly developed by the National Institutes on Aging and the USDA Human Nutrition Research Center on Aging. In simple terms, ORAC measures how well a food or drink renders free radicals inactive. Since free radicals can damage healthy cells in the body, the higher the ORAC value the better.

Now you can derive the energizing benefits of the Açai Berry in a delicious drink mix from Garden Greens™ BerrySplash™.
