DID YOU KNOW?

Teen boys need higher amounts of certain vitamins & minerals essential for muscle function, energy production & general health. And, nutrition surveys reveal that most aren't getting what they need via diet alone.

GNC milestones™ Teen Vitapak® for Boys

GNC milestones™ Teen Vitapak® for Boys is a complete daily program designed to help active teenage boys meet their nutritional needs.* Each convenient daily pack contains essential vitamins, minerals and other key ingredients to support overall health and wellness, along with specialized formulas to help fuel muscles and support skin and eye health.*

Teen Multivitamin for Boys – Specially designed to meet the increased nutritional needs of growing teen boys. This premium formula provides B-vitamins to help fuel carbohydrate metabolism and energy production, nutrients such as vitamin C and zinc to support natural resistance, vitamin E and selenium for antioxidant protection against harmful free radicals, and bone-strengthening ingredients such as calcium, vitamin D-3 and magnesium.* It also includes a Skin Support Blend with lutein for additional antioxidant support.*

Muscle Function Complex – Provides a specialized blend of branched chain amino acids (BCAA), the building blocks of protein.* BCAA help fuel skeletal muscles during sports and in daily activity, preserving muscle glycogen stores and helping reduce muscle breakdown.* BCAA are important for the growth and repair process of muscle tissue.*

Concentrated Mini Fish Oil – This high-potency, 5 times purified fish oil provides 501 mg of omega-3 fatty acids EPA and DHA, which promote skin and joint health and support the body's natural anti-inflammatory response.* DHA is found in eye and brain cell membranes and is important for vision and brain cell function.*
