

Joint-Ease provides a plant-based option for effective joint comfort. This proprietary combination of selected plant components influences kinase signaling and the formation of certain substances, such as PGE₂, that are associated with minor discomfort. Clinical testing suggests that Joint-Ease may offer a high degree of predicted cardiovascular, gastric, renal, and liver safety.*

Directions: Take one softgel two times daily with food or as directed by your healthcare practitioner.

This product is non-GMO and gluten-free.

Caution: Do not use if pregnant or nursing, or taking anticoagulants. If taking other medication, consult your healthcare practitioner before use. Keep out of the reach of children.
