ELECTROMINERAL CELL SALTS +C

Supports:

- pH balanced, alkaline blood & collagen production*
- Energy, immunity & electrolytes*
- Muscle cramps, nerves & blood pressure*
- Joints, bones & muscles (strength & function*)
- Athletic performance & amino acid production*
- Lymphatic detoxification, circulatory support*
- Digestion, gut health & kidney health*
- Mineral restoration in the bones, muscles, heart & all organs*
- Immediate & long-term remineralization and replenishment of the main carbonate body salts (sodium, potassium, calcium, and magnesium)*

What do minerals do in the body?

Essential minerals, also called micronutrients, are needed to regulate many body processes.

Sodium and potassium are needed for nervous system function, nerve transmission, fluid balance and muscle contraction.

Calcium and Magnesium are needed for nerve function and immune system health.

Consult your health care professional prior to taking this or any other dietary supplement. Do not use if seal is broken.
