

Suggested Usage: Adults chew or dissolve 2 lozenges in mouth following meals or as needed. For children (over 4), chew or dissolve 1 lozenge in mouth following meals or as needed.

Digestive enzymes are essential to the body's absorption and full use of food.* The capacity of the body to make enzymes diminishes with age, and therefore the efficiency of digestion declines.* NOW® Papaya Enzyme Lozenges have a refreshing taste and support digestion when taken after meals.* Our lozenges are made with whole, unripe, spray dried papaya powder, and have 40 mg of papaya per lozenge. In addition, protease, lipase and cellulase have been included for a full spectrum of enzymatic activity. This tablet is also useful as a mint breath freshener.*

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**

Caution: Consult physician if pregnant/nursing, taking medication, or have a medical condition (including allergy to papaya, pineapple). Keep out of reach of children.

Natural color variation may occur in this product.

Store in a cool, dry place after opening.
