

Suggested Usage: Shake well before using. Take 1 to 2 droppersful 2-3 times daily in water or directly on the tongue.

Bee propolis is collected from beehives and has naturally occurring flavonoids. Bees collect the propolis from the resin of certain select trees and use it to line the hive. This substance is believed to be responsible for the sterile, healthy state of the beehive colony.

Caution: For adults only. Individuals who are allergic to bees, bee products, or bee pollen should not take this product. Not recommended for pregnant or nursing women. Consult physician if taking medication or have a medical condition. Keep out of reach of children.

Natural color variation may occur in this product.
