

Suggested Usage: Take 1 capsule 1 to 2 times daily as needed.

Colostrum is the nourishing fluid produced by mammals as food for the newborn in the few days after birth, before milk production begins. This bovine-derived food supplement offers a variety of biologically active proteins, including immunoglobulins, lactoferrin, and other factors that support the maintenance of lean muscle tissue, as well as a healthy immune system.* Scientific studies have shown that colostrum may help to enhance bioavailability and absorption of nutrients into the body, while promoting healthy gastro-intestinal function.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: Consult physician if pregnant/nursing, taking medication, or have a medical condition. Avoid taking if lactose intolerant and/or sensitive to dairy products. Keep out of reach of children.

This bottle is made from 100% PCR (post-consumer recycled) resin.
