

Suggested Usage: Take 1 capsule 1 to 4 times daily with food.

Curcumin, the active polyphenolic extract of turmeric, is one of the most scientifically investigated plant compounds.* However, curcumin's health-supporting properties depend on its bioavailability.* NOW® Curcumin Phytosome is a unique form of curcumin complexed with phosphatidylcholine that clinically demonstrates enhanced absorption and bioavailability as compared with standard curcumin extracts.* Clinical studies also show that curcumin phytosome is a powerful free radical scavenger, can help to support a balanced immune system response to normal metabolic stress, and can promote healthy joint mobility and flexibility.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition (including liver dysfunction, gall bladder or gastrointestinal problems). Keep out of reach of children.
