

Suggested Usage: Take 1 softgel 2 to 4 times daily with food.

Curcumin is the major bioactive component found in the roots of turmeric (*Curcuma longa*), a plant belonging to the ginger family. Turmeric has been used as a coloring and flavoring agent in South Asian cuisines for centuries, and it has also been recommended by traditional Ayurvedic herbalists for thousands of years. Curcumin has been extensively researched by modern scientists for its various biological activities.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, have a medical condition, or have any history of liver, gall bladder, or gastrointestinal problems. Keep out of reach of children.

Natural color variation may occur in this product.
