

**Flax-Algae Vegan Omega:
A Superior Source of Vegan
EPA & DHA**

This blend of fresh algae oil and our famous, cold-pressed flax oil is a unique take on a plant-based Omega-3 oil supplement, and one well worth using. Algae oil is the only direct, vegan source of EPA and DHA, nutrients that are essential for all but difficult to obtain. When land and sea come together, they create a powerful Omega-3 oil blend perfect for plant-based eaters.

The DHA levels in algae oil combined with the support of ALA Omega-3s in flax oil make for an ultra-effective way to support cardiovascular health, cognitive function, and overall well-being.*
