

Suggested Usage: Take 1 tablet 1 to 3 times daily. For best results, take 30 - 60 minutes before meals.

Garcinia cambogia is a plant native to SE Asia that has been used for centuries by traditional herbalists. *Garcinia's* primary bioactive constituent, Hydroxycitric Acid (HCA), has been extensively studied for its effects on citrate lyase, which is the main enzyme responsible for the cellular synthesis of fatty acids.* Scientific studies indicate that in the presence of HCA, cells produce fewer fatty acids from carbohydrates.* NOW® *Garcinia* is standardized to 50% HCA and tested to guarantee 500 mg HCA per tablet.
