

Body Ecology® Release Intestinal Biofilm Cleanser is a proprietary complex of ozone, peroxide, and other oxidants, combined with enzymes, designed to disrupt biofilms.*

Recommended usage: Take one (1) capsule two times a day with meals, or more if needed to achieve desired results.

Biofilms occur when microbes attach to a surface and form a barrier to protect the community inside.* One would then focus on repairing the gut lining and creating a healthy inner ecosystem.*

Store in a cool, dry place.
Keep out of reach of children.
